## “The Board”

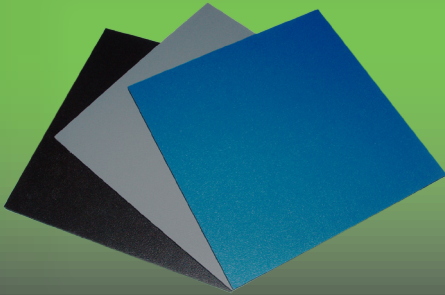

510-4125900 Black | 510-4125918 Gray | 510-4125933 Dark Blue

Panel Weight: 19.8lbs

Panel Size: 90” x 59” x 1/4”

### 3 COLOR OPTIONS:

*The Board* is an innovative polypropylene panel made up of three layers welded together to form a solid composite structure. The dimpled inner layer is sandwiched between two outer layers in an expertly engineered configuration which is unique and different from conventional hollow core panels. The dimples extend to both sides and are low in overall height, ensuring uniform thickness distribution.

### BENEFITS & FEATURES:

- Outstanding compressive and impact strength in all directions including edges and sides
- Can be treated/handled like plywood with traditional tools
- 100% polypropylene
- Completely recyclable
- Ideal structural material for ATA cases, crates, packaging applications and re-usable shipping containers
- Face is haircell textured, back is smooth black
